2023-24 Fall OASIS Reporting Updates for Districts and Student Information Systems

In preparation for meeting the requirements of the Alaska Reads Act, districts will need to update student information and reporting systems (such as PowerSchool) for Fall OASIS reporting to start in the 2023-2024 school year.

There is one new data element that will be implemented in the 2023-24 Fall OASIS Data Collection:

1. Teacher of Record ATI

More details on this data element are below.

Teacher of Record ATI

Districts currently report Alaska Teacher Identification Numbers (ATIs) in the certified staffing collection due to the department by October 15th annually. Districts will need to link ATI to the student records submitted in the Fall OASIS in grades KG-3. Only one ATI should be submitted for each student record. The ATI to be submitted, is the ATI for the main classroom teacher of the student as of the first school day of October (Oct. 1 count).

2023-24 Summer OASIS Reporting Updates for Districts and Student Information Systems

In preparation for meeting the requirements of the Alaska Reads Act, districts will need to update student information and reporting systems (such as PowerSchool) for Summer OASIS reporting to start in the 2023-2024 school year.

There are six new data elements that will be implemented in the 2023-24 Summer OASIS Data Collection:

1. Early Education Program
2. Non-Progression Reason
3. Reasons Progressed
4. Readings Skills Demonstrated
5. Non-proficiency Actions
6. Mid-year Progression

These data elements will be reported for students in the applicable grade range who were enrolled on the last day of school.

More details on each of the data elements are below.

Early Education Program

This data element refers to the early education program attended by a student. An early education program occurs prior to grade KG. This data element should be completed for students in grades KG to three who are enrolled on the last day of school. Districts should survey parents, perhaps on enrollment forms to complete this data element. Districts might need to crosswalk the information parents to the more generalized code set provided.

Alaska Reads Act References:

- AS 14.30.760(4)
- p. 28, lines 19 to 25
- Require that districts identify the early education programs attended by students and report to the department the average score on each performance screening tool by students in grades kindergarten through three who
 - attended a state-approved early education program;
 - attended a head start program;
 - attended a private early education program;
 - did not attend an early education program;

Data Element

Status	Element Name	Element Description
Conditional	Early Education Program	Early education program attended by students in grades <u>KG to three</u> . <u>If the student did not attend an early education program, leave this data element blank.</u> 1 Attended a state-approved early education program (DWEEP) 2 Attended a head start program 3 Attended a private early education program 4 Attended a district early education program (not DWEEP) 5 Attended an out of state early education program 6 Parent refusal to disclose

Non-proficiency Actions

The Non-proficiency Actions data element is collected for student in grade three that have not demonstrated sufficient reading skills to progress to grade four on the spring literacy screener administration. Students who have previously demonstrated sufficient skills on the fall or winter administrations should not be included in this data element. This data element should only be completed for third grade students that were not proficient on the literacy screener and who are enrolled on the last day of school.
